

# JOSE LUIS GONZÁLEZ DÍAZ

## CTO & BACKEND ENGINEER

JOSELUIS@GONZALEZDIAZ.DEV | GITHUB.COM/JGONZALEZ-89 | WWW.GONZALEZDIAZ.DEV

### BACKGROUND

I specialize in the effective integration of external services and the application of emerging technologies, with a recent emphasis on artificial intelligence. My passion for technology and the development of innovative solutions is reflected in every project I lead and in my commitment to excellence and continuous improvement.

### EDUCATION

#### UNED - NATIONAL UNIVERSITY, MECHANICAL ENGINEERING

- Studied between, 2016 – 2019

#### 4GEEKS ACADEMY, FULLSTACK DEVELOPER

- Studied between, 2022 – 2023

### EXPERIENCE

#### KUBE ECOSYSTEM | CTO

Barcelona, Spain, MAR 2024 – present

As Chief Technology Officer at KubeEcosystem, I lead the development and strategic direction of key platforms including Flykube, Eatkube, Kubecoin, Kubepay (web and extension), Royal Hawk Club, and Kubeln. I manage cross-functional teams to deliver innovative solutions, ensuring seamless integration and optimal performance across our ecosystem.

#### ZORRAQUINO | BACKEND

Bilbao, Spain, MAY 2023 – JAN 2024

Backend Developer specialized in Python and Artificial Intelligence, proficient in frameworks such as Django and FastAPI. Experienced in designing and implementing scalable, efficient solutions that optimize processes using machine learning techniques. Passionate about technological innovation and committed to code quality and collaborative teamwork.

#### FIVERR | FRONTEND

Phoenix, AZ, JAN 2023 – MAY 2023

Played a key role in developing a management application for the hairdressing industry, aimed at streamlining business administration.

### SKILLS

- Backend Development with Python
- Artificial Intelligence and Machine Learning
- Full Stack Development
- DevOps and Infrastructure Management (AWS, Docker, Kubernetes)
- Database Management
- Leadership and Technical Team Management
